VOLUME 55 • SUBJECT INDEX

A549 epithelial cells, Enhanced binding of *Aspergillus fumigatus* spores to A549 epithelial cells and extracellular matrix proteins by a component from the spore surface and inhibition by rat lung lavage fluid, **579**

acoustic rhinometry, Intranasal challenge with aspirin in the diagnosis of aspirin intolerant asthma: evaluation of nasal response by acoustic rhinometry, **921**

acute attack, Case-control study of severe life threatening asthma (SLTA) in adults: demographics, health care, and management of the acute attack, **1007**

acute bronchitis, Declining incidence of episodes of asthma: a study of trends in new episodes presenting to general practitioners in the period 1989–98, **657**

Do hospital physicians have a role in reducing antibiotic prescribing in the community?, **153**

acute respiratory distress syndrome (ARDS), Alveolar haemorrhage in a case of high altitude pulmonary oedema, **167**

Comparison of systemic cytokine levels in patients with acute respiratory distress syndrome, severe pneumonia, and controls, **46**

acute respiratory failure, Incidence and causes of non-invasive mechanical ventilation failure after initial success, **819**

Predicting the outcome from NIV for acute exacerbations of COPD: *editorial*, **815**

acute respiratory infections, Indoor air pollution in developing countries and acute lower respiratory infections in children: *review*, **518**

adult asthma, Prevention of adult asthma by early intervention during childhood: potential value of new generation immunomodulatory drugs: *review*, **700**

adult height, Adult height and cryptogenic fibrosing alveolitis: a case-control study using the UK General Practice Research Database, **864**

adult onset wheeze, Childhood exposure to infection and risk of adult onset wheeze and atopy, **383**

adult pulmonary Langerhans' cell histiocytosis, Adult pulmonary Langerhans' cell histiocytosis: *review*, **405**

adult sleep apnoea syndrome, The genesis of adult sleep apnoea in childhood: *review*, **964**

adults, Frequent paracetamol use and asthma in adults, **266**

adverse reactions, Aspirin induced adverse skin reactions: new pathophysiological aspects, **S70 (Suppl 2)**

air pollution, Asthma aggravation, combustion, and stagnant air, **466**

air stagnation, Asthma aggravation, combustion, and stagnant air, **466**

airway development, The contribution of airway development to paediatric and adult lung disease, **587**

airway inflammation, Dissociation between exhaled nitric oxide and hyperresponsiveness in children with mild intermittent asthma, **484**

Factors influencing airway inflammation in chronic obstructive pulmonary disease: *review*, **970**

Non-invasive markers of airway inflammation as predictors of oral steroid responsiveness in asthma, **232**

Relationship between exhaled nitric oxide and mucosal eosinophilic inflammation in mild to moderately severe asthma, **184**

airway sensitivity, Gender differences in airway behaviour: *letter*, **629**

allergen, Allergen immunotherapy: does it work and, if so, how and for how long?, **S10 (Suppl 1)**

Is allergen exposure the major primary cause of asthma?, **424**

allergic rhinitis, Allergic inflammation in the unified airway: start with the nose: *review*, **878**

Influence of intranasal steroids during the grass pollen season on bronchial responsiveness in children and young adults with asthma and hay fever, **826**

allergic rhinobronchitis, United airways disease: therapeutic aspects, **S26 (Suppl 2)**

allergy, Allergic inflammation in the unified airway: start with the nose: *review*, **878**

Aspirin induced adverse skin reactions: new pathophysiological aspects, **S70 (Suppl 2)**

Diet and childhood asthma in a society in transition: a study in urban and rural Saudi Arabia, **775**

Nasal polyposis, eosinophil dominated inflammation, and allergy, **S79 (Suppl 2)**

alpha-1 antitrypsin, Alpha-1-antitrypsin deficiency: what next?: *review*, **614**

Factors influencing airway inflammation in chronic obstructive pulmonary disease: *review*, **970**

altitude illness, Alveolar haemorrhage in a case of high altitude pulmonary oedema, **167**

alveolar haemorrhage, Alveolar haemorrhage in a case of high altitude pulmonary oedema, **167**

alveolar macrophages, Reduced production of interleukin 12 by interferon γ primed alveolar macrophages from atopic asthmatic subjects, **842**

ambulance, Emergency pre-hospital management of patients admitted with acute asthma, **97**

ambulatory blood pressure, Case-control study of 24 hour ambulatory blood pressure in patients with obstructive sleep apnoea and normal matched control subjects, **736**

amyloidosis, Recurrent laryngeal nerve palsy associated with mediastinal amyloidosis, **436**

angiomyolipoma, Clinical experience of lymphangioleiomyomatosis in the UK, **1052**

Annual report, Annual report October 1998 to September 1999: *editorial*, **2**

Annual report October 1999 to September 2000: *editorial*, **986**

antiasthma drugs, Prevention of adult asthma by early intervention during childhood: potential value of new generation immunomodulatory drugs: *review*, **700**

antibiotic prescribing, Do hospital physicians have a role in reducing antibiotic prescribing in the community?, **153**

antibiotics, Antibiotic prescribing in the community: *letter*, **722**

Elective versus symptomatic antibiotic treatment in cystic fibrosis patients with chronic *Pseudomonas* infection of the lungs, **355**

Maintenance treatment of chronic *Pseudomonas aeruginosa* infection in cystic fibrosis : *editorial*, **349**

Respiratory antibiotic use and *Clostridium difficile* infection: is it the drugs or is it the doctors?: *editorial*, **633**

anticholinergic agents, A randomised controlled comparison of tiotropium and ipratropium in the treatment of chronic obstructive pulmonary disease, **289**

antiretroviral therapy, Subacute hypersensitivity pneumonitis in an HIV infected patient receiving antiretroviral therapy, **625**

anti-inflammatory drugs, Aspirin and other anti-inflammatory drugs, **S3 (Suppl 2)**

antioxidants, Is there any relationship between plasma antioxidant capacity and lung function in smokers and in patients with chronic obstructive pulmonary disease?, **189**

Oxidant stress in asthma, **S51 (Suppl 2)**

apoptosis, Bcl-2 expression in sputum eosinophils in patients with acute asthma, **370**

apples, Diet, lung function, and lung function decline in a cohort of 2512 middle aged men, **102**

asbestos, Malignant vascular tumours of the pleura in "asbestos" workers and endothelial differentiation in malignant mesothelioma, **860**

aspergillosis, Non-tuberculous mycobacterial lung infection complicated by chronic necrotising pulmonary aspergillosis, **717**

Aspergillus fumigatus, Enhanced binding of *Aspergillus fumigatus* spores to A549 epithelial cells and extracellular matrix proteins by a component from the spore surface and inhibition by rat lung lavage fluid, **579**

aspirin, Aspirin and other anti-inflammatory drugs, **S3 (Suppl 2)**

Aspirin induced adverse skin reactions: new pathophysiological aspects, **S70 (Suppl 2)**

Unusual effects of aspirin on ticlopidine induced thrombolysis, **S17 (Suppl 2)**

aspirin desensitisation, cts of lysine-acetylsalicylate (LAS) treatment in nasal polyposis: two controlled long term prospective follow up studies, **S75 (Suppl 2)**

aspirin sensitive asthma, Clinical features and diagnosis of aspirin induced asthma, **S42 (Suppl 2)**

Genetics of aspirin induced asthma, **S45 (Suppl 2)**

Intranasal challenge with aspirin in the diagnosis of aspirin intolerant asthma: evaluation of nasal response by acoustic rhinometry, **921**

Rhinosinusitis and nasal polyposis in aspirin sensitive and aspirin tolerant patients: are they different?, **S84 (Suppl 2)**

Surgical treatment of nasal polyposis in patients with aspirin intolerance, **S87 (Suppl 2)**

The aspirin disease, **S66 (Suppl 2)**

The importance of COX-2 inhibition for aspirin induced asthma, **S54 (Suppl 2)**

Variant LTC_4 synthase allele modifies cysteinyl leukotriene synthesis in eosinophils and predicts clinical response to zafirlukast, **S28 (Suppl 2)**

aspirin triggered lipid mediators, Aspirin triggered lipid mediators: novel inhibitors of leucocyte trafficking, **S10 (Suppl 2)**

assisted discharge from hospital, Assisted discharge for patients with exacerbations of chronic obstructive pulmonary disease: safe and effective: *editorial*, **885**

Early discharge for patients with exacerbations of chronic obstructive pulmonary disease: a randomised controlled trial, **902**

Randomised controlled trial of supported discharge in patients with exacerbations of chronic obstructive pulmonary disease, **907**

asthma, Absence of relationship between tuberculin reactivity and atopy in BCG vaccinated young adults, **454**

Allergic inflammation in the unified airway: start with the nose: *review*, **878**

Association of sputum parameters with clinical and functional measurements in asthma: *review*, **235**
Asthma aggravation, combustion, and stagnant air, **466**
Asthma and poverty: *review*, **239**
Asthma care: *letter*, **535**
Asthma deaths in Scotland and in Wales: *letter*, **346**

fenoterol, Athletes and fenoterol: *letter*, **441**
fertility, Attitudes to fertility issues among adults with cystic fibrosis in Scotland, **672**
fetal origins of disease, Atopy, lung function, and obstructive airways disease after prenatal exposure to famine, **555**
fibreoptic bronchoscopy, Diagnosis of lung cancer: FOB before CT or CT before FOB?: *editorial*, **350**
Role of computed tomographic scanning of the thorax prior to bronchoscopy in the investigation of suspected lung cancer, **359**
fluoroquinolones, The next generation: fluoroquinolones in the management of acute lower respiratory infection in adults: *review*, **83**
fluticasone propionate, Effect of one year treatment with inhaled fluticasone propionate or beclomethasone dipropionate on bone density and bone metabolism: a randomised parallel group study in adult asthmatic subjects, **375**
Fluticasone in asthma: *letter*, **724**
Inhaled fluticasone: *letter*, **628**
Nebulised fluticasone: *letter*, **346**
Therapeutic ratio of inhaled fluticasone: *letter*, **252**
forced expiratory spirometry, Which spirometric indices best predict subsequent death from chronic obstructive pulmonary disease?, **785**
forced expiratory volume in 1 second, PEF versus FEV_1: *letter*, **807**

foreign body, Primary pulmonary botryomycosis: a late complication of foreign body aspiration, **1068**
formoterol, Systemic effects of formoterol and salmeterol: a dose-response comparison in healthy subjects, **650**
free radicals, Oxidant stress in asthma, **S51 (Suppl 2)**
Respiratory muscle function and free radicals: from cell to COPD: *review*, **704**
fruit, Consumption of fresh fruit rich in vitamin C and wheezing symptoms in children, **283**
functional genomics, Recent advances in molecular biological techniques and their relevance to pulmonary research: *review*, **329**
fungal allergy, An animal model for allergic penicilliosis induced by the intranasal instillation of viable *Penicillium chrysogenum* conidia, **489**

gene repression, Molecular mechanisms of glucocorticoid action: what is important?: *review*, **603**
gene therapy, Recent advances in molecular biological techniques and their relevance to pulmonary research: *review*, **329**
general practice, Asthma care: *letter*, **535**
Comparison of high dose inhaled steroids, low dose inhaled steroids plus low dose theophylline, and low dose inhaled steroids alone in chronic asthma in general practice, **837**
Declining incidence of episodes of asthma: a study of trends in new episodes presenting to general practitioners in the period 1989–98, **657**
Do hospital physicians have a role in reducing antibiotic prescribing in the community?, **153**
PEF versus FEV_1: *letter*, **807**
Underdiagnosis of asthma: is the doctor or the patient to blame? The DIMCA project, **562**
genesis, The genesis of adult sleep apnoea in childhood: *review*, **964**
genetic linkage, A hereditary haemorrhagic telangiectasia family with pulmonary involvement is unlinked to the known HHT genes, *endoglin* and *ALK-1* , **685**
genetic polymorphism, Genetics of aspirin induced asthma, **S45 (Suppl 2)**
genetics, Adult familial cryptogenic fibrosing alveolitis in the United Kingdom, **143**
Association of respiratory syncytial virus bronchiolitis with the interleukin 8 gene region in UK families, **1023**
Five cases of sarcoidosis in one family: a new immunological link?, **343**
Genetic susceptibility to chronic obstructive pulmonary disease in Koreans: combined analysis of polymorphic genotypes for microsomal epoxide hydrolase and glutathione S-transferase M1 and T1, **121**
Genetic susceptibility to COPD: *letter*, **723**
genotype, Asthma exacerbations during long term β agonist use: influence of β_2 adrenoceptor polymorphism, **762**
geriatrics, Tuberculin responses and risk of pneumonia in immobile elderly patients, **867**
glucocorticoid, Molecular mechanisms of glucocorticoid action: what is important?: *review*, **603**
glucocorticoid receptor, Molecular mechanisms of glucocorticoid action: what is important?: *review*, **603**
glutathione-S transferase, Genetic susceptibility to chronic obstructive pulmonary disease in Koreans: combined analysis of polymorphic genotypes for microsomal epoxide hydrolase and glutathione S-transferase M1 and T1, **121**
glutathione S-transferase P1, Screening for polymorphisms in exon 5 of the glutathione S-transferase Pl gene: *letter*, **535**
GM-CSF, Pulmonary alveolar proteinosis: clinical aspects and current concepts on pathogenesis: *review*, **67**
gp130, Distinct effects of Broncho-Vaxom (OM-85 BV) on gp130 binding cytokines, **678**
granulomas, Expression of thioredoxin in granulomas of sarcoidosis: possible role in the development of T lymphocyte activation, **755**
guidelines, "Opportunist" mycobacterial infections: *letter*, **722**
Smoking cessation guidelines for health professionals: an update, **987**

Haemophilus parainfluenzae, A case of *Haemophilus parainfluenzae* pneumonia, **623**
haemopoiesis, Haemopoietic mechanisms in nasal polyposis and asthma, **S24 (Suppl 2)**
health care, Case-control study of severe life threatening asthma (SLTA) in adults: demographics, health care, and management of the acute attack, **1007**
health care resources, Resource implications of patients with multidrug resistant tuberculosis, **962**
health care workers, A paired comparison of tuberculin skin test results in health care workers using 5 TU and 10 TU tuberculin, **693**
health related quality of life, Development of a disease specific health related quality of life measure for adults and adolescents with cystic fibrosis, **946**
herbal medicine, Herbal medicines for asthma: a systematic review, **925**
20-HETE, A new class of lipid mediators: cytochrome P450 arachidonate metabolites, **S13 (Suppl 2)**
high altitude, Alveolar haemorrhage in a case of high altitude pulmonary oedema, **167**
high blood pressure, Hypertension in patients with sleep apnoea, a combined effect?: *editorial*, **726**
HIV, Subacute hypersensitivity pneumonitis in an HIV infected patient receiving antiretroviral therapy, **625**
hospital admissions, Comparison of the seasonal patterns of asthma identified in general practitioner episodes, hospital admissions, and deaths, **662**
Factors associated with hospital admissions and repeat emergency department visits for adults with asthma, **566**
human T lymphotrophic virus type (HTLV)-I, Clinical investigation of pulmonary *Mycobacterium avium* complex infection in human T lymphotrophic virus type I carriers, **388**
hypercapnia, Ventilatory responses to hypercapnia and hypoxia in relatives of patients with the obesity hypoventilation syndrome, **940**
hypersensitivity, Hypersensitivity to pyrazolones, **S72 (Suppl 2)**
hypersensitivity pneumonitis, Subacute hypersensitivity pneumonitis in an HIV infected patient receiving antiretroviral therapy, **625**
hypersomnolence, Transtracheal air in the treatment of obstructive sleep apnoea hypopnoea syndrome, **86**
hypertension, Which aspects of breathing during sleep influence the overnight fall of blood pressure in a community population?, **393**
hyperventilation syndrome, Hyperventilation and asymptomatic chronic asthma, **1016**
Hyperventilation syndrome: *letter*, **884**
Orthostatic increase of respiratory gas exchange in hyperventilation syndrome, **295**
Orthostatic increase of respiratory gas exchange in hyperventilation syndrome: *editorial*, **257**
hypocapnia, Hyperventilation and asymptomatic chronic asthma, **1016**
hypoxia, Inhaled nitric oxide treatment for preterm infants with hypoxic respiratory failure, **S42 (Suppl 1)**
Ventilatory responses to hypercapnia and hypoxia in relatives of patients with the obesity hypoventilation syndrome, **940**

idiopathic pulmonary fibrosis, Involvement of Epstein-Barr virus latent membrane protein 1 in disease progression in patients with idiopathic pulmonary fibrosis, **958**
IL-2Rα, Expression of thioredoxin in granulomas of sarcoidosis: possible role in the development of T lymphocyte activation, **755**
imipenem, Treatment of severe nosocomial pneumonia: a prospective randomised comparison of intravenous ciprofloxacin with imipenem/cilastatin, **1033**
immunisation, Absence of relationship between tuberculin reactivity and atopy in BCG vaccinated young adults, **454**
immunocompromised host, A persistent challenge: the diagnosis of respiratory disease in the non-AIDS immunocompromised host: *review*, **511**
immunoglobulin therapy, Anaemia in lung transplant patient caused by parvovirus B19, **619**
immunology, Five cases of sarcoidosis in one family: a new immunological link?, **343**
immunotherapy, Allergen immunotherapy: does it work and, if so, how and for how long?, **S10 (Suppl 1)**
impact factor, Journal Impact Factors for 1999: *editorial*, **725**
indoor air pollution, Indoor air pollution in developing countries and acute lower respiratory infections in children: *review*, **518**
induced sputum, Association of sputum parameters with clinical and functional measurements in asthma: *review*, **235**
Induced sputum examination: diagnosis of pulmonary involvement in Fabry's disease, **720**
Relation of sputum inflammatory markers to symptoms and lung function changes in COPD exacerbations, **114**
induced sputum eosinophilia, Non-invasive markers of airway inflammation as predictors of oral steroid responsiveness in asthma, **232**
infection, Family size, infection and atopy: the first decade of the "hygiene hypothesis", **S2 (Suppl 1)**
inflammation, Molecular mechanisms of glucocorticoid action: what is important?: *review*, **603**
Nasal polyposis, eosinophil dominated inflammation, and allergy, **S79 (Suppl 2)**
New evidence of inflammation in asthma, **S59 (Suppl 2)**
Ongoing airway inflammation in patients with COPD who do not currently smoke, **12**

perennial allergic rhinitis, Perennial allergic rhinitis and keratoconjunctivitis, **S22 (Suppl 2)**
performance enhancement, Athletes and fenoterol: *letter*, **441**
perinatal factors, Perinatal risk factors for asthma in Finnish adolescent twins, **25**
peripherally inserted central catheter, Ultrasound placement of peripherally inserted central catheters (PICCs) in adults with cystic fibrosis: *letter*, **535**
pharmacogenetics, Variant LTC_4 synthase allele modifies cysteinyl leukotriene synthesis in eosinophils and predicts clinical response to zafirlukast, **S28 (Suppl 2)**
phospholipoproteinosis, Pulmonary alveolar proteinosis: clinical aspects and current concepts on pathogenesis: *review*, **67**
"hygiene hypothesis" Family size, infection and atopy: the first decade of the "hygiene hypothesis", **S2 (Suppl 1)**
pleura, Malignant vascular tumours of the pleura in "asbestos" workers and endothelial differentiation in malignant mesothelioma, **860**
pleurodesis, Transforming growth factor β_2 ($TGF\beta_2$) produces effective pleurodesis in sheep with no systemic complications, **1058**
plexogenic pulmonary arteriopathy, Mitral stenosis obscuring the diagnosis of plexogenic pulmonary arteriopathy and familial pulmonary hypertension, **247**
pneumatic splinting, Transtracheal air in the treatment of obstructive sleep apnoea hypopnoea syndrome, **86**
pneumococcal pneumonia, Diagnosis of pneumococcal pneumonia by polymerase chain reaction (PCR) in whole blood: a prospective clinical study, **133**
***Pneumocystis carinii* pneumonia,** Prophylaxis of *Pneumocystis carinii* pneumonia: too much of a good thing?, **S13 (Suppl 1)**
pneumonia, A case of *Haemophilus parainfluenzae* pneumonia, **623**
Comparison of systemic cytokine levels in patients with acute respiratory distress syndrome, severe pneumonia, and controls, **46**
Non-specific interstitial pneumonia: findings on sequential CT scans of nine patients, **854**
Treatment of severe nosocomial pneumonia: a prospective randomised comparison of intravenous ciprofloxacin with imipenem/cilastatin, **1033**
Tuberculin responses and risk of pneumonia in immobile elderly patients, **867**
pneumothorax, Clinical experience of lymphangioleiomyomatosis in the UK, **1052**
Epidemiology of pneumothorax in England, **666**
Pneumothorax in adults with cystic fibrosis dependent on nasal intermittent positive pressure ventilation (NIPPV): a management dilemma, **620**
poliomyelitis, Assisted ventilation for chronic neuromuscular disorders: *editorial*, **1**
Long term non-invasive ventilation in the community for patients with musculoskeletal disorders: 46 year experience and review, **4**
polymerase chain reaction, Diagnosis of pneumococcal pneumonia by polymerase chain reaction (PCR) in whole blood: a prospective clinical study, **133**
polymorphism, Asthma exacerbations during long term β agonist use: influence of β_2 adrenoceptor polymorphism, **762**
Screening for polymorphisms in exon 5 of the glutathione S-transferase P1 gene: *letter*, **535**
Secondary genetic factors in cystic fibrosis lung disease: *editorial*, **446**
$TGF\text{-}\beta_1$ genotype and accelerated decline in lung function of patients with cystic fibrosis, **459**
polysomnography, Automated analysis of digital oximetry in the diagnosis of obstructive sleep apnoea, **302**
portable monitor, Automated analysis of digital oximetry in the diagnosis of obstructive sleep apnoea, **302**
positional management, New developments in the treatment of obstructive sleep apnoea, **S37 (Suppl 1)**
poverty, Asthma and poverty: *review*, **239**
prediction rule, Severity prediction rules in community acquired pneumonia: a validation study, **219**
predictors, Which spirometric indices best predict subsequent death from chronic obstructive pulmonary disease?, **785**
prednisolone, Inhaled fluticasone: *letter*, **628**
pregnancy, Maternal smoking during pregnancy, environmental tobacco smoke exposúre and childhood lung function, **271**
Tuberculosis diagnosed during pregnancy: a prospective study from London, **129**
pre-hospital treatment, Emergency pre-hospital management of patients admitted with acute asthma, **97**
prescriptions, Antibiotic prescribing in the community: *letter*, **722**
pressure settings, Comparison of two in-laboratory titration methods to determine effective pressure levels in patients with obstructive sleep apnoea, **741**
preterm infants, Inhaled nitric oxide treatment for preterm infants with hypoxic respiratory failure, **S42 (Suppl 1)**
prevalence, Recent trends in physician diagnosed COPD in women and men in the UK, **789**
primary care, Antibiotic prescribing in the community: *letter*, **722**
Spirometry in primary care: *letter*, **440**
The challenge of providing better care for patients with chronic obstructive pulmonary disease: the poor relation of airways obstruction?: *review*, **78**
primary pulmonary hypertension, Differentiation between mitral stenosis and coexisting PPH: *letter*, **808**
Mitral stenosis obscuring the diagnosis of plexogenic pulmonary arteriopathy and familial pulmonary hypertension, **247**
Role of atrial septostomy in the treatment of pulmonary vascular disease: *editorial*, **95**
prognosis, Malignant mesothelioma: predictors of prognosis and clinical trials: *editorial*, **725**
Prognostic factors for malignant mesothelioma in 142 patients: validation of CALGB and EORTC prognostic scoring systems, **731**
prophylaxis, Prophylaxis of *Pneumocystis carinii* pneumonia: too much of a good thing?, **S13 (Suppl 1)**
prostaglandins, The importance of COX-2 inhibition for aspirin induced asthma, **S54 (Suppl 2)**
protein thiols, Is there any relationship between plasma antioxidant capacity and lung function in smokers and in patients with chronic obstructive pulmonary disease?, **189**
***Pseudomonas aeruginosa*,** Elective versus symptomatic antibiotic treatment in cystic fibrosis patients with chronic *Pseudomonas* infection of the lungs, **355**
Increased sputum amino acid concentrations and auxotrophy of *Pseudomonas aeruginosa* in severe cystic fibrosis lung disease, **795**
Maintenance treatment of chronic *Pseudomonas aeruginosa* infection in cystic fibrosis : *editorial*, **349**
Pseudomonas infection in CF: *letter*, **1070**
pulmonary alveolar proteinosis, Pulmonary alveolar proteinosis: clinical aspects and current concepts on pathogenesis: *review*, **67**
pulmonary arterial hypertension, Pulmonary arterial hypertension in patients with sleep apnoea syndrome, **934**
pulmonary arteriovenous malformations, A hereditary haemorrhagic telangiectasia family with pulmonary involvement is unlinked to the known HHT genes, *endoglin* and *ALK-1*, **685**
pulmonary eosinophilia, Churg-Strauss syndrome associated with montelukast therapy, **805**
pulmonary oedema, Alveolar haemorrhage in a case of high altitude pulmonary oedema, **167**
pulmonary sarcoidosis, Correlation of CD4:CD8 ratio and tumour necrosis factor (TNF)α levels in induced sputum with bronchoalveolar lavage fluid in pulmonary sarcoidosis, **696**

pulmonary vascular disease, Role of atrial septostomy in the treatment of pulmonary vascular disease: *editorial*, **95**
pyoderma gangrenosum, Pyoderma gangrenosum: *letter*, **347**
pyrazolones, Hypersensitivity to pyrazolones, **S72 (Suppl 2)**

quality control, Biological quality control for exercise testing, **63**
quality of life, Asthma education and quality of life in the community: a randomised controlled study to evaluate the impact on white European and Indian subcontinent ethnic groups from socioeconomically deprived areas in Birmingham, UK, **177**
How well do we care for patients with end stage chronic obstructive pulmonary disease (COPD)? A comparison of palliative care and quality of life in COPD and lung cancer, **1000**
In what way may race, ethnicity or culture influence asthma outcomes?: *editorial*, **175**
Palliative care for patients with non-malignant end stage respiratory disease: *editorial*, **979**
α-quartz Increased risk of obstructive pulmonary disease in tunnel workers, **277**
questionnaire, Development of a disease specific health related quality of life measure for adults and adolescents with cystic fibrosis, **946**

radiation fibrosis, Superior vena cava obstruction caused by radiation induced venous fibrosis, **245**
radiology, Physiological and radiological characterisation of patients diagnosed with chronic obstructive pulmonary disease in primary care, **635**
The heterogeneity of chronic obstructive pulmonary disease: *editorial*, **631**
randomised controlled trials, Patient accrual into chemotherapy trials in non-small cell lung cancer: *editorial*, **447**
Recruitment of patients with lung cancer into a randomised clinical trial: experience at two centres, **463**
rare diseases, Adult pulmonary Langerhans' cell histiocytosis: *review*, **405**
Churg-Strauss syndrome: *review*, **870**
Organising pneumonia: *review*, **318**
Pleuropulmonary manifestations of systemic lupus erythematosus: *review*, **159**
Pulmonary alveolar proteinosis: clinical aspects and current concepts on pathogenesis: *review*, **67**
readmission, Early discharge for patients with exacerbations of chronic obstructive pulmonary disease: a randomised controlled trial, **902**
reference equations, Re-estimated equations for 5th percentiles of lung function variables: *letter*, **173**
rehabilitation, Supplemental oxygen during pulmonary rehabilitation in patients with COPD with exercise hypoxaemia, **539**
remodelling, New evidence of inflammation in asthma, **S59 (Suppl 2)**
respiratory care units, Respiratory care units for non-invasive mechanical ventilation in motor neurone disease: *letter*, **345**
respiratory disease, A persistent challenge: the diagnosis of respiratory disease in the non-AIDS immunocompromised host: *review*, **511**
respiratory effort, Which aspects of breathing during sleep influence the overnight fall of blood pressure in a community population?, **393**
respiratory failure, Management of respiratory failure with ventilation via intranasal stents in cystic fibrosis, **434**
Pulmonary function, smoking cessation and 30 year mortality in middle aged Finnish men, **746**
respiratory gas exchange, Orthostatic increase of respiratory gas exchange in hyperventilation syndrome: *editorial*, **257**
respiratory infections, Personal exposure to nitrogen dioxide and risk of airflow obstruction in asthmatic children with upper respiratory infection, **930**
respiratory insufficiency, One year period prevalence study of respiratory acidosis in acute exacerbations of COPD: implications for the provision of non-invasive ventilation and oxygen administration, **550**
respiratory muscle function, Respiratory muscle function and free radicals: from cell to COPD: *review*, **704**
respiratory syncytial virus bronchiolitis, Association of respiratory syncytial virus bronchiolitis with the interleukin 8 gene region in UK families, **1023**
respiratory system, Athletes and fenoterol: *letter*, **441**
respiratory tract, Xanthoma disseminatum with respiratory tract involvement and fatal outcome, **170**
review, Aspirin and other anti-inflammatory drugs, **S3 (Suppl 2)**
rhinitis, Intranasal challenge with aspirin in the diagnosis of aspirin intolerant asthma: evaluation of nasal response by acoustic rhinometry, **921**
rhinosinusitis, Epidemiology of chronic rhinosinusitis, **S20 (Suppl 2)**
Rhinosinusitis and nasal polyposis in aspirin sensitive and aspirin tolerant patients: are they different?, **S84 (Suppl 2)**
risk factors, Risk factors for death from asthma: *letter*, **91**
risk ratio to siblings of a disease (λ_S), Epidemiology of familial sarcoidosis in the UK, **751**

salbutamol, Asthma exacerbations during long term β agonist use: influence of β_2 adrenoceptor polymorphism, **762**
Salmeterol in paediatric asthma, **780**
Therapeutic equivalence of inhaled salbutamol: *letter*, **347**
salmeterol, Asthma exacerbations during long term β agonist use: influence of β_2 adrenoceptor polymorphism, **762**
Effect of salmeterol on airway eosinophils: *letter*, **92**
Salmeterol in paediatric asthma, **780**
Systemic effects of formoterol and salmeterol: a dose-response comparison in healthy subjects, **650**
sarcoidosis, Epidemiology of familial sarcoidosis in the UK, **751**
Expression of thioredoxin in granulomas of sarcoidosis: possible role in the development of T lymphocyte activation, **755**
Saudi Arabia, Diet and childhood asthma in a society in transition: a study in urban and rural Saudi Arabia, **775**
sclerosing agents, Management of malignant pleural effusions: *editorial*, **981**
screening, Detection of early lung cancer, **S46 (Suppl 1)**
seasonality, Comparison of the seasonal patterns of asthma identified in general practitioner episodes, hospital admissions, and deaths, **662**
Declining incidence of episodes of asthma: a study of trends in new episodes presenting to general practitioners in the period 1989–98, **657**
severity, Severity prediction rules in community acquired pneumonia: a validation study, **219**
sex differences, Gender differences in airway behaviour: *letter*, **629**
Recent trends in physician diagnosed COPD in women and men in the UK, **789**
sheep, Transforming growth factor β_2 (TGFβ_2) produces effective pleurodesis in sheep with no systemic complications, **1058**
sialyl Lewis^x, Role of E-selectin in bleomycin induced lung fibrosis in mice, **147**
sick building syndrome, An animal model for allergic penicilliosis induced by the intranasal instillation of viable *Penicillium chrysogenum* conidia, **489**
signal transduction, Distinct effects of Broncho-Vaxom (OM-85 BV) on gp130 binding cytokines, **678**
silica dust, Chronic pulmonary function impairment caused by initial and recurrent pulmonary tuberculosis following treatment, **32**
Silica dust and lung cancer: *letter*, **172**
single pulmonary nodules, Role of Tc-99m MIBI in the evaluation of single pulmonary nodules: a preliminary report, **60**
single strand conformation polymorphism (SSCP), Screening for polymorphisms in exon 5 of the glutathione S-transferase P1 gene: *letter*, **535**
sleep, Effect of non-invasive mechanical ventilation on sleep and nocturnal ventilation in patients with chronic respiratory failure, **308**
sleep apnoea, Automated analysis of digital oximetry in the diagnosis of obstructive sleep apnoea, **302**
Hypertension in patients with sleep apnoea, a combined effect?: *editorial*, **726**
Randomised prospective parallel trial of therapeutic versus subtherapeutic nasal continuous positive airway pressure on simulated steering performance in patients with obstructive sleep apnoea, **224**
sleep apnoea syndrome, Pulmonary arterial hypertension in patients with sleep apnoea syndrome, **934**
sleep apnoea/hypopnoea syndrome, Comparison of two in-laboratory titration methods to determine effective pressure levels in patients with obstructive sleep apnoea, **741**
sleepiness, Randomised prospective parallel trial of therapeutic versus subtherapeutic nasal continuous positive airway pressure on simulated steering performance in patients with obstructive sleep apnoea, **224**
small vessel vasculitis of the lung, Small vessel vasculitis of the lung: *review*, **502**
smear, The ligase chain reaction as a primary screening tool for the detection of culture positive tuberculosis, **955**
smoking, Increase in prevalence and severity of asthma in young adults in Copenhagen, **833**
Is there any relationship between plasma antioxidant capacity and lung function in smokers and in patients with chronic obstructive pulmonary disease?, **189**
Large lung bullae in marijuana smokers, **340**
Re-estimated equations for 5th percentiles of lung function variables: *letter*, **173**
Smoking, lung function, and mortality: *editorial*, **729**
Stopping smoking: the importance of nicotine addiction: *editorial*, **256**
Tobacco related lung diseases begin in childhood: *review*, **1063**
smoking cessation, Pulmonary function, smoking cessation and 30 year mortality in middle aged Finnish men, **746**
Smoking cessation guidelines for health professionals: an update, **987**
Smoking cessation, **S24 (Suppl 1)**
social impact, Chronic bronchial asthma from challenge to treatment: epidemiology and social impact, **S57 (Suppl 2)**
socioeconomics, Case-control study of severe life threatening asthma (SLTA) in adults: demographics, health care, and management of the acute attack, **1007**

spacer devices, Spacer devices in asthma: *letter,* **1070**
spirometry, Spirometry in primary care: *letter,* **440**
sputum, Bcl-2 expression in sputum eosinophils in patients with acute asthma, **370**
Induced sputum in children: feasibility, repeatability, and relation of findings to asthma severity, **768**
sputum analysis, Association of sputum parameters with clinical and functional measurements in asthma: *review,* **235**
sputum eosinophilia, Association of sputum parameters with clinical and functional measurements in asthma: *review,* **235**
St George's Questionnaire (SGRQ), Respiratory questionnaires in COPD: *letter,* **441**
staging, Malignant mesothelioma: predictors of prognosis and clinical trials: *editorial,* **725**
Prognostic factors for malignant mesothelioma in 142 patients: validation of CALGB and EORTC prognostic scoring systems, **731**
Staphylococcus aureus, Systematic review of antistaphylococcal antibiotic therapy in cystic fibrosis: *letter,* **251**
subphrenic abscess, Conservative management of a transdiaphragmatic fistula, **438**
sudden infant death syndrome, The genesis of adult sleep apnoea in childhood: *review,* **964**
superior vena cava syndrome, Superior vena cava obstruction caused by radiation induced venous fibrosis, **245**
surfactant abnormalities, Pulmonary alveolar proteinosis: clinical aspects and current concepts on pathogenesis: *review,* **67**
surfactant protein D, Enhanced binding of *Aspergillus fumigatus* spores to A549 epithelial cells and extracellular matrix proteins by a component from the spore surface and inhibition by rat lung lavage fluid, **579**
survival, Incidence and causes of non-invasive mechanical ventilation failure after initial success, **819**
Predicting the outcome from NIV for acute exacerbations of COPD: *editorial,* **815**
systematic review, "Systematic review" of asthma education studies: *letter,* **253**
Systematic review of antistaphylococcal antibiotic therapy in cystic fibrosis: *letter,* **251**
systemic effects, Systemic effects of formoterol and salmeterol: a dose-response comparison in healthy subjects, **650**
systemic hypertension, Hypertension in patients with sleep apnoea, a combined effect?: *editorial,* **726**
systemic lupus erythematosus, Pleuropulmonary manifestations of systemic lupus erythematosus: *review,* **159**

T cells, Allergic reactions to drugs: involvement of T cells, **S61 (Suppl 2)**
T lymphocyte, Tuberculin responses and risk of pneumonia in immobile elderly patients, **867**
tartaric acid, Effect of oral mexiletine on the cough response to capsaicin and tartaric acid, **126**
taurolidine, Nebulised taurolidine and *B cepacia* bronchiectasis: *letter,* **91**
Tc-99m MIBI SPECT scanning, Role of Tc-99m MIBI in the evaluation of single pulmonary nodules: a preliminary report, **60**
theophylline, Comparison of high dose inhaled steroids, low dose inhaled steroids plus low dose theophylline, and low dose inhaled steroids alone in chronic asthma in general practice, **837**
therapeutic equivalence, Therapeutic equivalence of inhaled salbutamol: *letter,* **347**
thioredoxin, Expression of thioredoxin in granulomas of sarcoidosis: possible role in the development of T lymphocyte activation, **755**
***Thorax*,** Journal Impact Factors for 1999: *editorial,* **725**
thrombolysis, Unusual effects of aspirin on ticlopidine induced thrombolysis, **S17 (Suppl 2)**
thyroidectomy, Paradoxical vocal cord motion causing stridor after thyroidectomy, **533**
ticlopidine, Unusual effects of aspirin on ticlopidine induced thrombolysis, **S17 (Suppl 2)**
tiotropium, A randomised controlled comparison of tiotropium and ipratropium in the treatment of chronic obstructive pulmonary disease, **289**
tobacco, Tobacco related lung diseases begin in childhood: *review,* **1063**
transdiaphragmatic fistula, Conservative management of a transdiaphragmatic fistula, **438**
transforming growth factor β, A hereditary haemorrhagic telangiectasia family with pulmonary involvement is unlinked to the known HHT genes, *endoglin* and *ALK-1* , **685**
TGF-β_1 genotype and accelerated decline in lung function of patients with cystic fibrosis, **459**
Transforming growth factor β_2 (TGFβ_2) produces effective pleurodesis in sheep with no systemic complications, **1058**
transoesophageal biopsy, Obtaining tissue from the mediastinum: endoscopic ultrasound guided transoesophageal biopsy: *editorial,* **983**
transtracheal air, Transtracheal air in the treatment of obstructive sleep apnoea hypopnoea syndrome, **86**
traveller's thrombosis, Traveller's thrombosis, **S27 (Suppl 1)**
treatment, Risk factors and costs associated with an asthma attack, **19**
Treatment of severe nosocomial pneumonia: a prospective randomised comparison of intravenous ciprofloxacin with imipenem/cilastatin, **1033**
tuberculin response, Tuberculin responses and risk of pneumonia in immobile elderly patients, **867**
tuberculin skin test, A paired comparison of tuberculin skin test results in health care workers using 5 TU and 10 TU tuberculin, **693**
tuberculosis, Absence of relationship between tuberculin reactivity and atopy in BCG vaccinated young adults, **454**
Atopy, asthma, and the mycobacteria: *editorial,* **443**
BCG vaccination by multipuncture method: *letter,* **345**
Chronic pulmonary function impairment caused by initial and recurrent pulmonary tuberculosis following treatment, **32**
Control and prevention of tuberculosis in the United Kingdom: Code of Practice 2000, **887**
International patterns of tuberculosis and the prevalence of symptoms of asthma, rhinitis, and eczema, **449**
Management of opportunist mycobacterial infections: Joint Tuberculosis Committee guidelines 1999: *review,* **210**
"Opportunist" mycobacterial infections: *letter,* **722**
Resource implications of patients with multidrug resistant tuberculosis, **962**
TB guidelines: *letter,* **809**
The ligase chain reaction as a primary screening tool for the detection of culture positive tuberculosis, **955**
Towards elimination of tuberculosis in a low income country: the experience of Cuba, 1962–97, **39**
Tuberculosis diagnosed during pregnancy: a prospective study from London, **129**
tumour necrosis factor, Correlation of CD4:CD8 ratio and tumour necrosis factor (TNF)α levels in induced sputum with bronchoalveolar lavage fluid in pulmonary sarcoidosis, **696**
twins, Perinatal risk factors for asthma in Finnish adolescent twins, **25**

UK General Practice Research Database, Adult height and cryptogenic fibrosing alveolitis: a case-control study using the UK General Practice Research Database, **864**
ultrasound, Ultrasound placement of peripherally inserted central catheters (PICCs) in adults with cystic fibrosis: *letter,* **535**
underdiagnosis, Underdiagnosis of asthma: is the doctor or the patient to blame? The DIMCA project, **562**
underpresentation, Underdiagnosis of asthma: is the doctor or the patient to blame? The DIMCA project, **562**
united airways disease, United airways disease: therapeutic aspects, **S26 (Suppl 2)**
upper abdominal surgery, Effect of digoxin on global respiratory muscle strength after cholecystectomy: a double blind study, **497**
urticaria, Aspirin induced adverse skin reactions: new pathophysiological aspects, **S70 (Suppl 2)**
uvulopalatoplasty, Unpredictable results of laser assisted uvulopalatoplasty in the treatment of obstructive sleep apnoea, **399**

venous obstruction, Superior vena cava obstruction caused by radiation induced venous fibrosis, **245**
ventilatory failure, Rationale for the use of non-invasive ventilation in chronic ventilatory failure: *review,* **417**
ventilatory gas exchange, Orthostatic increase of respiratory gas exchange in hyperventilation syndrome, **295**
ventilatory response, Ventilatory responses to hypercapnia and hypoxia in relatives of patients with the obesity hypoventilation syndrome, **940**
vitamin C, Consumption of fresh fruit rich in vitamin C and wheezing symptoms in children, **283**
volume restriction, Capsaicin induced cough in cryptogenic fibrosing alveolitis, **1028**

Wegener's granulomatosis, Small vessel vasculitis of the lung: *review,* **502**
wheezing, Consumption of fresh fruit rich in vitamin C and wheezing symptoms in children, **283**
wind speed, Asthma aggravation, combustion, and stagnant air, **466**
wound healing, Aspirin triggered lipid mediators: novel inhibitors of leucocyte trafficking, **S10 (Suppl 2)**

xanthoma disseminatum, Xanthoma disseminatum with respiratory tract involvement and fatal outcome, **170**

zafirlukast, Effect of leukotriene receptor antagonist therapy on the risk of asthma exacerbations in patients with mild to moderate asthma: an integrated analysis of zafirlukast trials, **478**
Variant LTC_4 synthase allele modifies cysteinyl leukotriene synthesis in eosinophils and predicts clinical response to zafirlukast, **S28 (Suppl 2)**
